

Smart Comply

Managed IT Compliance

Leveraging data discovery agents, a multi-framework benchmarking assessment and an experienced team of cybersecurity and compliance advisors, IT compliance is just a step away.

Whether regulatory-driven or the result of other internal or external factors, IT compliance management is increasingly leaving business and technology leaders with their heads spinning.

To help ease this rising burden, today's highly regulated and security-conscious businesses need an efficient and innovative solution to streamline, automate and manage the compliance process.

With Smart Comply, Omega Systems' managed compliance solution, companies can appropriately assess the current state of their IT and cybersecurity environment and leverage ongoing, automated technology coupled with strategic advisory to support a comprehensive governance, risk and compliance program.

Core Smart Comply Features:

Data Discovery & IT Assessment

Advanced data discovery technology and multi-framework IT assessment tools to power security & compliance

Strategic Advisory

How Smart Comply Works

Omega Systems' compliance consultants (vCISOs) hold multiple cybersecurity and IT compliance certifications and have deep expertise and industry-specific knowledge to help customers navigate the complexities of the IT compliance lifecycle. As cybersecurity threats increase — alongside regulatory, investor and stakeholder expectations — Omega works alongside businesses of all sizes and across all disciplines to mitigate deficiencies, fortify controls and establish ongoing compliance programs to help keep businesses safeguarded & compliant in the future.

And unlike other so-called compliance-as-a-service providers that resell a suite of third-party tools and technologies to make you feel as if your services is 'managed', Omega's team delivers a complete and proprietary solution built on discovery so you have full visibility into your business' unique vulnerabilities, risks and requirements before designing an operative roadmap for strategic compliance.

Is Managed Compliance Right for Your Business?

Smart Comply delivers a strategic and sophisticated path forward for businesses looking to:

- Alleviate the compliance burden on your current IT team
- Satisfy regulators, investors, clients & other stakeholders
- Fulfill growing cyber liability insurance requirements
- Better understand the value of your data and how it correlates to risk

IT Compliance Management is ideal for:

- Banks and financial institutions
- Registered investment firms
- Government contractors
- Healthcare organizations
- Software companies
- Insurance providers
- and more

Omega's professionals specialize in compliance for any business subject to state, local or other data protection or IT security compliance requirements — as well as those who aren't subject to regulatory requirements but operate with a security-forward mindset.

Regulatory Compliance Frameworks We Support

In addition to Omega's multi-framework IT compliance assessment – which draws from leading regulatory frameworks for broad-spectrum compliance – Smart Comply gives businesses access to a deep collection of regulatory frameworks and assessments, standardized by vertical industries, regional and international governing bodies, globally recognized non-regulatory agencies and more, to ensure your organization is never more than a click away from compliance.

SOC 2

Keep your customers' data safe in the cloud and out of the hands of cybercriminals

PCI DSS

Ensure protection of sensitive credit card information - and secure the trust of your clients

NIST

Ensure protection of sensitive government data using any or all NIST cybersecurity frameworks

CMMC

Prepare for the new CMMC certification process to maintain your government contracts

ISO 27001

Mitigate Information security risks with this internationally recognized guideline

HIPAA

Keep Protected Health Information (PHI) safe to ensure sensitive data stays private

CCPA

Easily demonstrate your compliance with the latest U.S.-based privacy laws

GDPR

Ensure your compliance with the European Union's official privacy regulation
