

# Trusted IT Solutions for **Law Firms & Legal Practices**

Omega Systems delivers the critical IT support, comprehensive cybersecurity solutions and white-glove customer service that law firms and legal services companies require to support their clients.

“ Not only does Omega Systems help safeguard us from advanced cybersecurity threats, but they back up their knowledge and expertise with reliable customer service, consistent communication and competitive pricing. They give us the confidence we need to ensure that both our and our clients’ sensitive information is protected and that we have the technology and support we need to maintain our daily legal operations. ”

Richard A. Schnoll, Esq.  
Managing Partner  
Cohn Lifland Pearlman Hermann & Knopf LLP

Is your law firm struggling to keep up with the demands of technology while maintaining focus on your clients and cases? Is your current technology stack outdated and vulnerable to cyber-attack?

Omega Systems is a trusted managed service provider (MSP) to the legal industry and has a comprehensive set of solutions designed to ensure attorneys can collaborate productively, protect clients’ sensitive information effectively, and have access to reliable and experienced IT support when they need it most.

## Why choose Omega Systems for your law firm?

# Purpose-Built Managed IT Services for the Legal Industry

## 24X7 REMOTE SUPPORT

Focus on your cases, depositions and client calls without worrying about IT disruptions, spotty Wi-Fi, or video call freezes. Our dedicated support team is available 24/7/365 to address any issues and keep your systems running smoothly.

## NEXT-GEN CYBERSECURITY PROTECTION

Protect your sensitive client data and ensure compliance with specific industry regulations with our robust cybersecurity programs and services delivered proactively via our in-house Security Operations Center (SOC).

## LEGAL SOFTWARE EXPERTISE

We provide comprehensive support for the legal software your firm relies on, including, but not limited to:

- **Document Management:** NetDocuments, Worldox, iManage
- **Case Management:** Clio, MyCase, PracticePanther, Smokeball
- **Legal Billing:** Timeslips, PCLaw, Time Matters

## ONSITE SUPPORT

When you need hands-on help, our team will come to you. Whether it's troubleshooting hardware issues, setting up new equipment, or getting your staff back up and running, we'll be there to provide personalized support tailored to your firm's needs.

## CLOUD & COLLABORATION SERVICES

Embrace the flexibility and scalability of cloud computing with our tailored cloud solutions for the legal professional. Access your case files, legal documents, and applications securely from anywhere, enabling seamless collaboration among team members and improving client responsiveness.

## ARTIFICIAL INTELLIGENCE (E.G. MICROSOFT COPILOT)

Law firms can benefit from artificial intelligence by streamlining research processes, improving document drafting efficiency and enhancing overall legal analysis, leading to increased productivity and higher quality legal services. Setting up the proper security guardrails for your firm to use AI is our forte.
